Art Unit 1713

1. Claims 1-68 are currently pending.
2. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-18 and 33-52, drawn to a method for carrying out the continuous polymerization of a monomer in a carbon dioxide reaction medium, classified in Class 526, subclass 70;

II. Claims 19-32 and 53-68, drawn to an apparatus, classified in Class 422, subclass 129+.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and Group II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (M.P.E.P. § 806.05(e)). In this case, it would be expected that the apparatus as claimed can be used to practice another and materially different process apart from polymerization. The apparatus would, for example, be expected to find utility in oligomerization, isomerization or hydrogenation processes.

Art Unit 1713

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, with the search required for Group II not being required for Group I, restriction for examination purposes as indicated is proper.

5. Applicants are advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed.

6. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

7. Any inquiry concerning this communication should be directed to Examiner F. M. Teskin whose telephone number is (703) 308-2456.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu, can be reached on (703) 308-2450. The appropriate fax phone number for the organization where this application or proceeding is assigned is (703) 305-3599.
